Musterlösungen zu Kapitel 12

H. Mössenböck: Sprechen Sie Java

Aufgabe 7: Codeverbesserung

❏   p = null;

❏   p = current;

❏   exit = current.val == val;

❏   while (p != null && p.val != val) {…; p = p.next; }
    // p == null || p.val == val
    if (p!= null) ... // p.val == val

❏   previous.next = current.next; current.next = root; root = current;

❏   while (p != null && p.val != val) p = p.next;

❏   current.next = root; root = current;
